Why new temple?

Existing prayer hall has city approved occupancy of 200 people only, which makes hall overcrowded for Thursdays and major events. Prayer hall height limit will not allow affective cooling of the hall during major events. Other limitations include shoe racks, coat racks, parking spaces, parking lights, class rooms and gift shop areas. Since building is 50 years old, utilities and maintenance costs are higher too. Kitchen and Maha prasadam areas are congested during Thursdays and major events. Due to fire code restrictions, city can't approve homam room in the current building.

Planning

Based on the progress of the temple and to overcome the above constraints, the well wishers of temple assembled and decided to go for new temple building. Since current property is spread around 10 acres, a new building can be built adjacent to present temple. 2014 and 2015 boards overwhelmingly approved to move forward with the project. The new temple will cater to the needs of growing Michigan Baba Devotees and future generations. We have completed the land survey and draft temple layouts.

New Building key features include:

- ◆ Larger hall—600 people
- ◆ Expanded Kitchen
- ◆ Sufficient parking
- ◆ All season Homam room
- ◆ Year round Pallaki seva
- ◆ Larger Meditation hall
- ◆ Community center
- ◆ Efficient heating & cooling
- ◆ Larger Sai Library
- ◆ More class rooms
- ◆ Expanded Sai Gift center
- ◆ Sai Lendi Baagh (Landscaping)

Tentative Schedule:

- ◆ Land survey and Initial layout: complete—2015.
- ◆ Finalize designs and city approvals—2017 & 2018
- ◆ Ground breaking—2018 (100 years of Baba Maha Samadhi)
- ◆ Construction—2018– 2020
